MOHAMED SALIH

Data Analyst | IT support

Contact: +966579732499 | salihmohamed169@gmail.com | **Location**: Riyadh
Online: LinkedIn | portfolio

SUMMARY

Highly analytical and results-driven **Data Analyst** with a strong foundation in **Computer Science** and **Information Technology**. Proven ability to transform complex datasets into **actionable business insights** through comprehensive **data analysis**, **predictive modeling**, and interactive **dashboard development**. Proficient in **Python (Pandas, NumPy, Scikit-learn)**, **Power BI**, and **Excel**. Demonstrated expertise in **data cleaning**, **exploration data analysis (EDA)**, **feature engineering**, and implementing **machine learning solutions**. Eager to apply strong problem-solving, teamwork, and communication skills to drive data-driven decision-making and achieve organizational objectives. Additionally, knowledgeable in IT Support, including **technical support**, **troubleshooting, help desk support, networking fundamentals, hardware installation and maintenance, and software installation and configuration**. Adept at diagnosing technical issues, supporting end users, and delivering effective solutions

EXPERIENCE & PROJECTS

Data Analytics Intern — CodeAlpha *Virtual Internship | Aug 2026 – Sep 2026*

- Completed a practical Data Analytics internship using **Python** and data analysis techniques.
- Performed **Web Scraping** with Requests and BeautifulSoup, collecting and cleaning a dataset of **1,000 books**.
- Conducted **EDA** and statistical analysis using **Pandas, Matplotlib**, and **Seaborn** to identify trends, patterns, and data-quality issues.
- Performed Sentiment Analysis on **25,000** Amazon reviews using **NLP** and VADER, with lexicon-based emotion analysis.
- Created visualizations and analytical outputs and published projects on **GitHub.**

British Airways Data Science Job Simulation on Forage - September 26, 2026

- Completed a simulation focusing on how data science is a critical component
- of British Airways' success.
- Scraped and analyzed customer review data to uncover findings.
- Built a predictive model to understand factors that influence buying behavior.

Data Entry Clerk | Law Firm - ***May 2026 – August 2026***

- Entered and organized legal documents and case-related information using **Microsoft Word** and **Microsoft Excel**.
- Prepared, formatted, and updated documents and spreadsheets with a focus on accuracy and consistency.
- Maintained organized digital records to support efficient document retrieval and management.
- Reviewed data entries to identify errors and ensure data accuracy.

Data Analytics Trainee | MedTourEasy | May 2026

- Developed Predict Blood Donations project.
- Performed data cleaning, **EDA**, preprocessing, and feature engineering on **700+** donor records
- Presented analytical insights.
- Achieved **92%** prediction accuracy

IT Support Trainee | April 2026

- Completed **20+** IT support labs.

- Resolved **50+** simulated support cases.
- Installed **Windows**, **Office**, printers, and supported end users.

Retail Sales Performance Analysis

- Analyzed **5,000+** records.
- Improved data quality by **30%.**
- Built Power BI KPI dashboard.

SKILLS

- **Programming & Libraries:** Python (Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn), SQL (PostgreSQL, MySQL), HTML, CSS, JS, PHP
- **Data Analysis & Business Intelligence (BI):** Power BI, Microsoft Excel (Advanced), Data Cleaning, Exploratory Data Analysis (EDA), ETL Processes, KPI Design, Dashboard Development, Statistical Analysis, Business Intelligence (BI), Data Visualization
- **Machine Learning**: Predictive Modeling, Classification, Regression, Random Forest, Model Evaluation (Accuracy, Precision, Recall, F1-Score), Feature Importance, Supervised Learning, Unsupervised Learning
- **Tools & Platforms**: Jupyter Notebooks, Git, GitHub, VS Code, Tableau, Anaconda
- **Databases**: SQL, Data Modeling, Database Management Systems (DBMS), Data Warehousing
- **Computer Skills:** Proficient in Microsoft Office Suite (Word, Excel, PowerPoint, and Outlook), Internet Research, Email Management, Data Entry, File and Document Management, Professional Presentation Preparation, and Windows Operating Systems.
- **IT Support** (Technical Support, Troubleshooting, Help Desk Support, Networking Fundamentals, Hardware, Installation & Maintenance, Software Installation & Configuration)

EDUCATION

Bachelor of Science in Information Technology (Honors) | *2020 – 2025 University of Science and Technology*
Grade: Very Good

CERTIFICATIONS & COURSES

- **IBM**: Introduction to Data Analysis, Excel Basics for Data Analysis, Generative AI: Introduction and Applications, Generative AI: Prompt Engineering Basics
- **Microsoft**: Data Analysis and Visualization with Power BI, Data Modeling in Power BI, SQL Foundations
- **Meta:** Python Data Analytics
- **Other:** International Computer Driving License (ICDL)
- **Google:** IT Support Professional Certificate, Google **Data Analytics**, Google **AI**

LANGUAGES

- **Arabic:** Native
- **English:** Professional Working Proficiency (B2)
